

- Draft of BT Brohm Testimony Notes. 1996.
- Maps of Gilt Edge site, reclamation, Ruby Gulch waste repository, Anchor Hill topo.
- Violation History of Large Scale Gold Mines in the Black Hills. By DENR. 1995.
- Correspondence b/w Brohm, Marvin D. Truhe, and DENR regarding mining permits. 1995.
- 1996 typed notes regarding the agenda and preparation for a lawsuit
- Power point presentation: Gilt Edge Mine ARD Mitigation Plan, Historic Site Conditions. 1995. Prepared by SRK
- Correspondence b/w Brohm, Marvin D. Truhe, and DENR regarding hearings about ARD reclamation and mining permit 439. 1995.

New Box #24

(From Original Box #9)

- topo map
- negatives – pictures of pipeline, settling ponds, site area
- Graph'r disk
- Notebooks – most blank. One with handwritten notes of groundwater monitoring data, pH, EC, flow, etc.
- Disk – cal-aud_form.doc and calprest.xls
- Disks – HP software
- 2 power cords
- Office supplies – plastic slide holding sheets, transparencies, labels
- Empty folders (in with Original Box #9)
- Adds for Buckstop – sporting goods
- Folders – BES-4, 8, 17, 18. BED-4, 5, 7, 8, 11, 15. GW-2A, 3, 4, 5, 6, 7, 8A, 9A, 10A, 1&2. SW-2, 3, 5, 8, 28. FD-1. Ruby Dump. S-5, 7. 001. 003: All with sample forms and results from Mid-Continent lab
- SBC Loading, Water Treatment, Misc Samples 1998-99, Leak Response Action Plan Samples 1999: all have Mid-Continent lab results
- LRAP logs
- 1997-98 receipts for slaked lime
- Photos – aerial views of the Gilt Edge
- Large blue folder – EPA – Emergency Planning and Community Right-to-Know Act, Toxic Release Inventory, Workshop Materials 1997

/ New Box #25

(From Original Box #55)

- folder – Water Sample Budget – Travis Laboratories, info from 1987-1989, general info regarding monitoring wells and water samples
- folder – Water Quality Monitoring 1987 and 1987 Annual Report – correspondence from DWNr, and Operational Water Quality Monitoring Program Report for/by Brohm 1987
- folder – Travis – laboratory water sample results
- 1986 memo from James Montgomery regarding water sampling to Brohm

- folder – water wells and streams – water sample results and correspondence from DWNr regarding sulfide project at Gilt Edge
- folder – tech amend water samples - correspondence from DWNr regarding the oxide program at Gilt Edge
- folder – DWNr – correspondence between Brohm, EnecoTech, and DWNr regarding sulfide project and holes to be drilled, 1987-88
- folder – Inter Mountain Soils (IMS) – correspondence between Brohm and Inter Mountain Soils regarding soil remediation, including a proposal and a service agreement. Certificates of insurance (IMS is insured by State Compensation Insurance Authority). 1988
- folder – Exploration Approval USFS 1988 – no more than 250 holes with a max depth of 2,000 feet are allowed to be drilled over two years. A \$20,000 bond was issued for reclamation
- folder – Expl-Sulfide – correspondence b/w Brohm and DWNr regarding the intent to conduct exploration and remediation to follow.
- folder – expl-notice-state – correspondence b/w Brohm and DWNr re: access roads, erosion controls, potential drill pad construction, topo, and claim map. 1988
- folder – EnecoTech – correspondence b/w Brohm, Minproc, and EnecoTech, re: vegetation, wildlife, geology, soils, cultural resources, and socioeconomics studies.
- Folder – Expl-app-state-1988 – correspondence b/w Brohm, SD Historical Society, DWNr, and DGF&P re: exploration
- Folder – FS Expl Permit Appl – Notice of Intention to Operate form and answers, Brohm intends to construct a leach pad on some of USFS land.
- Folder – Elk – elk introduced by the USFS into the Black Hills area 1988
- Folder – FS Org
- Folder – FS Notice EIS Monitor Well Approval – 1989
- Folders – Correspondence – general correspondence regarding the Sulfide Project and organizational information for the USFS
- Folder – Maps – topos, blue print drawings of the site, and baseline soil map
- Folder – Consultants – list of consultants and letters regarding potential projects/reports
- Folder – Veg – request to Enecotech Inc to conduct a vegetation survey by Minproc, Stoecker-Keammerer & Assoc, 1988. Noted that OEA was awarded the contract for the baseline vegetation study
- Folder – NEPA – print outs
- Folder – OEA – states they provided 6 copies of the vegetation report
- Various folders with hand written notes.
- Folder – Mariah - Mariah Associates submit a list of previous work completed to get the EIS contract
- Folder – Minproc – correspondence b/w Minproc, Brohm, and EnecoTech regarding the Sulfide Project at Gilt Edge, 1987-88
- Various information regarding soils baseline survey
- Folder – Stream Sediment – Sulfide Project. 1987
- Folder – EIS Outline – 1987

- Telephone logs with J. Montgomery, USFS, DWNr, Travis Labs, SCS
- Folder - Technical Information Project (TIPS) - information regarding heap leach and open pit mining, information on current mining issues - 1987
- EPA report folder - only pages 199 to 368
- Boomer Creek and Oro Fino mining claim maps
- List of adjacent land owners
- Folder - Exploration-misc - correspondence regarding the intent for exploration (i.e. USDA states seeds to use to re-vegetate the areas)
- Folder - 1986 EXNI - correspondence from Lacana and Gilt Edge Inc.
- Folder - claims - claim lists with ownership, microfiche card
- Folders - computer info, correspondence, misc, soil erosion controls.
- Proposal: Evaluation of Geochemical Attenuation - Brohm Mining Corporation - Gilt Edge Sulfide Project - prepared for Minproc USA 1988
- Folder - sulfide waste characterization - lab results from Bondar-Clegg
- Folder - 1987 oxide waste test work
- Folder - 1988 Minproc Testing Sulfide - lab results from Travis Laboratories and Dawson Metallurgical Laboratories, Inc.
- folder - Hydrometrics - correspondence b/w Hydrometrics, Inc. and Brohm. Re: fate and pathways investigation to support permit amendment application
- folder - ARD, Pond A Info - lab results of water samples from 1991-95.
- Folder - DWNr - correspondence from Brohm to DWNr regarding permit #1345-1
- Folder - Acid Gen. - correspondence b/w Brohm and DENR. 1995. re: Groundwater Discharge Plan 3-88, permit #462, request to move due date for soil and vegetation survey, certificate of deposit, leach pad, hydrologic monitoring.
- Brohm communication. Brohm chose MinProc USA as the Engineering, Procurement, Construction Manager (EPCM).
- Fax cover letters
- 1989 monthly report on water and air quality, compliance, and permits
- Folder - Memo Scott Wanstedt - 1988 memo states DE Pond developed small leak. Various samples discussed included water, vegetation, etc. mentions Oxide and Sulfide projects.
- Folder - memo by me (John Wilbanks) - discusses Gilt Edge, Strawberry Creek, and misc.
- Folders - maps - Denver, Rapid City, Spearfish, Deadwood, etc., ski areas, general layout of Brohm
- Folders - computer modems, software, memory cards, networking, CPUs, drives, backup, computer vendors, misc computer
- Folder- preg solution, liner attenuation
- Travis laboratories, letters and results, 1980-81
- Correspondence b/w Sister Marmion of SD School of Mines and Technology and Amoco 1980-81
- Folders - equipment - meters, platforms, groundwater monitoring products
- Correspondence from DWNr to Brohm in 1988. Regarding radium 228, radon, and uranium testing. Plus more related documents.
- Folder - building permits - building permit for site with site diagram

- Folder – Land application of petroleum contaminated soils. state permit 1990.
- 1984 vegetation study
- Blue folder – map of surface and groundwater monitoring sites.
- Manual – Small Scale Limited Impact Mining License
- Copy of Mining, Oil, and Gas – Chapter 45-6A Mined Land Reclamation
- Folder – water quality correspondence with DWNr.
- Folder- compliance order – leach pad 1988 letters from DWNr to Brohm
- Folder- monitoring well piezometric surface – 1989

New Box #26

(From Original Box #32)

Folders:

Re: A-17-1, A-17 (2,3,4), A-17-5, A-17-6, A-17-7, A-17-8, A-17-9, A-17-16, A-16-14, A-16-13, A-16-12, A-16-11, A-16-10, A-16-8&9, A-16-7, A-16-6, A-16-5&4, A-16-3, A-16-2, A-16-1. A-18-1, A-18-2&3, A-18-4, A-19-5, A-19-4, A-19-1,2,&3, A-20-2, A-20-1, A-21-1, A-21-2, A-18-5, A-18-6, A-18-7, A-18-8, A-18-9, A-18-12, S-15-2, S-21-1, S-20-1, S-19-1, S-19-2, S-19-3, S-18-3, A-18-4, S-17-1, S-17-2, S-16-1, S-8-1, S-8-2, S-9-1, S-9-3, S-10-1, S-10-2, S-11-1, S-12-1, S-13-1, S-14-1. Blast patterns, dig maps, bench maps. Dated 1997.

New Box #26

(From Original Box #31)

Folders:

- History Matching Reserves. 1990.
- 1988 – 1990 Royalties – Commonwealth and Northwestern are mentioned. Gilt Edge property summary
- Blank Check Request Sheets
- Blank Expense Reports
- Stockpiles – end of January 1997
- November 1996 EOM
- October 1996 EOM
- September 1996 EOM Volumes
- Stockpiles end of August
- Stockpiles Volumes EOM July (1996)
- Stockpiles Volumes end of June (1996)
- Stockpiles volumes end of May (1996)
- Crusher stockpile – end of April (1996)
- Crusher stockpile against weightometer
- Royalties – 5660, 5640, 5620, 5600, 5580, 5560, 5540, 5520, 5500, 5480, 5460, 5440, 5420, 5540, 5380, 5360,
- Anchor Phase I 5340 Royalties
- Royalties 7/1997
- Royalties 8/1997
- Southeast Langley (SEL) Royalties. 1997.

New Box #27
